Going Down: Divemasters, Book 1

Synopsis

Three SCUBA instructors, who happen to be sexual dominants, are about to take the ultimate plunge. If you're extraordinarily lucky, you'll be invited to join them on the Divemaster, where work and pleasure go hand in hand. Welcome aboard! Archer Banks relishes his carefree lifestyle. Together with friends and fellow divemasters Miguel Torrez and Tosin Ellis, he travels the world, SCUBA diving by day, entertaining lonely female tourists by night. Until his father dies, instantly transforming Archer from a beach bum to a billionaire by shackling him with an enormous, undesired inheritance. With the help of his family's longtime butler, Archer is determined to turn his new golden handcuffs into a golden opportunity. He prays Miguel and Tosin will come along for the ride when he repurposes his family's mega-yacht into a vessel well-suited for both work and hardcore play. Never in his worst nightmares does he expect their maiden voyage to be such rough sailing. Not only is Archer's old crush, Waverly Adams, among their passengers, but the men have also stumbled upon a vast sunken treasure-one worth killing for. Waverly surprises Archer with an alluring naughtiness he never got the chance to experience in their younger days. Busy accepting the challenge she issues his dominant side in the Divemaster's onboard club every night, he might be distracted and short on sleep. But could he also be blind to more dangerous facets of her personality? When the divemasters can no longer deny there's foul play at hand, will Archer be going down with the ship, cursed by his family's fortune, or will Waverly turn out to be the woman of his most wicked dreams?

Customer Reviews

Wow. It was evident how little the author knows of BDSM. Archer starts out not even knowing what the equipment is in the room the Butler added to the yacht. The story wasn't bad WITHOUT the BDSM stuff and then went further off the rails with a treasure hunt and sudden murder. Like we didn't know who the bad guy was. Real intrigue there. It was also unrealistic like no way does a crew find treasure in one dive. Arch and Wave make up and get together after years and then the most ridiculous and WRONG scene happens. A foursome. Really? A guy who professes to be that in love would share his woman with his two friends? The whole thing was unnecessary and cringe worthy. I got annoyed and began skimming at 80% and knew the rest of the story was going to be rushed with some big holes. And it was.

First things first: I received an ARC of Going Deep in exchange for an honest review. Second thing: I'm a fan of Ms. Rylon's books. However, neither of those things change my review or opinion. I really like this book and am looking forward to the rest of this series. At first I wasn't sure I was going to like Archer but as the story progressed and he began to share himself I liked him more and more. Waverley is a sweetheart, strong and kind, and I was seriously pulling for her and Archer to overcome the trials they were facing to become a strong couple. The Divemasters as a unit are a great trio. Although there were a couple of times I wanted to slap Miguel upside the head. The Divemasters turn into a great example of karma in action. Good works come back twofold. One touch I really liked was a passing tie to the Men in Blue series. If you haven't read that series (it's a fabulous series, I highly recommend it) you won't even notice the tie-in and you won't be missing out on anything or feel lost. It felt more like an "Easter egg" for fans. :) As for grammar/editing, even in an ARC I didn't notice any problems (of course, I was listening to it at work via text-to-speech so I may have missed something). It was still wonderful to have a book where the author respects their readers enough to have their book edited and proofed. All in all, I really enjoyed this book. I enjoyed the twists and turns, the surprises, and the HEA. I enjoyed the info about diving. I have a deep fear of the ocean so I'll enjoy it vicariously through this series. Thanks for the wonderful story, Jayne!

I wasn't sure how Jayne was going to make a romantic story about 3 guys and a boat. But she delivered. Archer has been holding on to a memory fogged by alcohol for over 10 years. He has been tough on himself and blaming himself for something out of his control. It is all brought to the surface when his father dies and he inherits billions. One big problem, his two best friends know nothing about this. They believe he has no family and are in total shock. Then enter his long lost love as a pilot on his new yacht. The twists and turns run deep in this story. The relationship is even

hotter. I am definitely looking forward to book 2. I am glad I don't have to wait too long for it's release. I received an advanced reader copy in exchange for my honest review.

The first in a new series, Divemasters, for Jayne Rylon is an education for those who have never SCUBA before. Going Down begins with Archer Banks finding his life is about to change in ways he never wanted it to change; the death of his father forces him to acknowledge and correct a lie he has been living since meeting them. He has been hiding from his past and now has the means to change everything for those around him, but first he must tell his two closest friends the truth and hope they will accept what he can now offer. Waverly Adams has known Archer for most of his life; has crushed on him most of her life; the opportunity to fly the helicopter for the Divemaster is one she doesn't want to pass on, even if she has to watch Archer with other women. She realises she must tempt him to see her as she sees him. Their past is part of the secret that Archer has kept from others and not one he wishes to share, but to make the partnership work, he has to include that in his confession. Divemasters is a spin off of Jayne Rylon's series Men in Blue in that the final book of the Men in Blue series, Bound for You, mentions the Divemaster and the foundation that Archer has set up with his billions.

Terrific romantic suspense set in the Caribbean between a vagabond SCUBA dive master and the high school sweetheart he hasn't seen in over a decade. Archer's a sexy bad boy with a heart of gold - totally swoon-worthy - and Waverly is a savvy, sassy military vet. Together they have combustible chemistry. Add in the suspenseful story line, the tropical setting, and a worthy cast of supporting characters, and it's a very enjoyable read.

This is a great start to a new series by Jayne Rylon. Ms. Rylon spends the first few chapters setting the backstory for the series and introduces the "Divemasters"- Archer, Miguel and Tosin. But my favorite character has to be Banks. The overall theme of this story is face your past- accept your past- use your past to improve the future. Miguel is up next and I can't wait.*I received a gifted ARC of this story from the author for a honest review*

1st off, Ms. Rylon's character of her hubby is funny. :)As a huge fan of all of Ms. Rylon's books, I was very interested in how she would make a scuba series work, and I think this one does. Initially, I had a problem with the pace, but after the first bit, the book started coming together for me. I think part of this is because I'm so used to the other books being a continuation of series, rather than the

start. (So this falls on me). You will fall for all three major character's, and I seriously hope we find out a happy ending for Banks by the end of the series Looking forward to the next 2 (already pre-ordered) :)
