How To Restore And Customize Automotive Interiors (Motorbooks Workshop)

Synopsis

A major part of any auto restoration is bringing the interior back to life, and *How to Restore and Customize Automotive Interiors* provides you with the tools and knowledge you need to tackle any job on any type of car, from prewar classics to full-on customs to modern vehicles. Veteran author Dennis Parks takes you step-by-step through all the processes, from restoring seats, door panels, floor coverings, and headliners to adding sound dampening and thermal insulation. With tips and advice for selecting the right tools and planning your job, as well as maintaining your restored interior, *How to Restore and Customize Automotive Interiors* is the only book you'll need to get the job done. *Installing Floor Coverings* *Repairing and Re-covering Seats* *Making Custom Door Panels* *Crafting Custom Headliners, Consoles, and More Upholstery* *Maintenance and Care*

Customer Reviews

For many restorers, hot-rodders, and custom-car builders, the opportunity to tailor their vehicles to their own vision is almost as exciting as driving the car itself. From center consoles to garnish moldings, door panels to deck lids, there are limitless opportunities to create the car interior of your dreams—all you need are the tools and know-how. Luckily, Motorbooks Workshop is here to help you out. Veteran Motorbooks author and lifelong gearhead Dennis Parks is back to walk you through many of the most common and popular interior and upholstery techniques. *How to Restore and Customize Automotive Interiors* is a one-stop resource when your

factory-stock bucket seats just won't cut it anymore or when your restored classic needs a shiny new headliner. Whether your goal is to wow the judges at a national car show or simply to improve the look and feel inside your favorite ride, you'll find something here to help you create an interior that really stands out. Each project features a chart of basic tools and materials, estimated time commitment, and more. Meticulous step-by-step photography and accompanying instruction help you every step of the way, offering tips, tricks, and options for each customization. You'll never look at your vehicle the same way again!

Dennis W. Parks has written several best-selling how-to books for the Motorbooks Workshop series, including How to Paint Your Car, How to Build a Cheap Hot Rod, Hot Rod Body and Chassis Builder's Guide, and The Complete Guide to Auto Body Repair. Parks' personal projects currently include a complete buildup of a 1955 Chevy pickup truck. He lives in Cedar Hill, Missouri.

Very good, real world information. Made life, as for learning the beginning stages, a lot easier. First book I read of the 5 that I had purchased and it helped me read the other four books, as if I knew a little about the profession.

Great Product / Outstanding Service...thanks

Exactly what described

Was very informative about things you could do to customize your interior

GREAT READING, MANY GREAT IDEAS.

More detail pictures would help, but I am a visual person.

excellent condition, just what I thought it would be

The book is much more centered on creating your own interiors than I expected and has very little relevant information on after market products. I do not want to buy a specialized sewing machine and that is what this book is all about.
