Customer Reviews

Chaotic and only focused on a single family dispute, with no analysis applicable to other circumstances.

So I got a notice about a new review on a product I was tracking. I was thinking that the review would be someone's review about this powercord I was interested in, but NOPE, it was a request to

go out and read his book. This book has nothing to do with a powercord. And there were 3 of the same review. It appears that this author is posting spam on many different UNRELATED to his book review sites here on . Poor form and in bad taste if you ask me and all for a 17 page book. Shame on this author. Don't buy this guys book.

It's unfortunate that the author would resort to spamming links to his book all over . It may very well be a decent book, but the actions of the author in trying to drive traffic to it are idiotic. If you have a quality product you don't need to resort to shady tactics like this.

The spamming of other reviews has come back to destroy your star rating. Not intelligent.

I understand the dirty deeds done. This book may not have been written by a talented author, but it clearly gets the facts across. Unfortunately this happens a LOT these days. One can only hope this book will be used to show other naive seniors what can happen if they do not use the proper legal methods. The cost is not too expensive these days, more than worth the cost to have it done right.

Author constantly spams everything on with links to his book.
