The Endocrine System Anatomical Chart
This useful chart of The Endocrine System shows the location of glands on the body. Each gland is separately illustrated and labeled and the hormones it secretions are listed. Shows the following glands: thyroid, parathyroid, thymus, adrenal, pineal, pituitary. Also includes the organs that have a secondary endocrine function producing and releasing hormones. The heart, kidney, stomach, duodenum, jejunum, pancreas, ovary, placenta, and testes and the hormones they secret are shown. Made in the USA. Available in the following versions: 20” x 26” heavy paper laminated with grommets at top corners ISBN 9781587790157 20” x 26” heavy paper ISBN 9781587790164

Wall Chart: 1 pages

It wasn’t clear when I ordered it, but it was not laminated (it says, when I look closely, that there are both laminated and non-laminated versions. I don’t recall any question about which I prefer, though that may have been my oversight). When I took it out of the box it had several pretty significant creases in it. All in all, I ended up immediately throwing it out for these 2 reasons - I had planned on putting a laminated version on the back of a door at my office. The picture was as described, however.

Great!!!!!!!!!!
Love this chart. Came quickly.

I used it to help teach anatomy and physiology class and it was very helpful. Came on time and was as expected.

Arrived creased and with bent corners. But the information is good.

good material, chart is precise, good enough for a classroom, or a decorative image for a physician room. covers a nice % of a wall.

Item arrived on time and within its estimated time frame. Easy to understand and easy to follow. Detailed and clear to read. Fantastic item :)

Delivered as scheduled, the poster is detailed enough for any student interested in human anatomy to learn from it.
